

Decision
on the approval
of a carbon-credit Category
Decision number:
M45_CAR_US_SEP_v1.1_2025

The Governing Board considered the Draft Evaluation Report and the Recommendation from the Standards Oversight Committee and decides¹:

- a) The Category/Categories meet(s) the relevant criteria and requirements for CCP-approval.
- U.S. Soil Enrichment Protocol version 1.1 applied under Climate Action Reserve where the following conditions are met:
 - where a Project Implementation Agreement (PIA) with a minimum 40-year permanence commitment is in place, AND
 - where the sustainable agriculture management practices applied in a project are not rotational and/or intensive grazing

Date of Board Decision	23 rd October 2025
